

In the Name of a Dream (Lyrics)

**Strained in my room, in an imaginary world**

**I wonder how's the other side**

**I want to open the window and cross that barrier**

**That's stopping me from flying higher**

**Because the only limit is myself**

**And the world is waiting for me**

**I go without leaving a trace**

**Searching for the unknown**

**Looking for a new place**

**Where I won't be alone**

**After all I've been imagining it's even better**

**Meeting all those people, learning all those cultures**

**And having such a wonderful time**

**What a rich experience**

**Now it's your time**

**And tomorrow it'll be you saying**

**I go without leaving a trace**

**Searching for the unknown**

**Looking for a new place**

**Where I won't be alone**
